CAREER OBJECTIVE

Data analyst with a strong background in statistics, machine learning, and data analysis. Proficient in Python, R, and SQL, with a proven track record of delivering actionable insights and solutions to complex business problems. Seeking a challenging role in a dynamic organization where I can leverage my skills and experience to drive business growth.

PROFESSIONAL EXPERIENCE

Snap One – Inventory Control Specialist; Charlotte, North Carolina

December 2024 – Current

- Conducts and manages both scheduled and unscheduled cycle counts.
- Manage the yearly physical inventory and partnership with outside auditors and various internal departments.
- Analyze and process transfer of goods between distribution centers.
- Actively participate and implement process improvements to inventory flow.
- *Integrating the Warehouse Check Tool into the Cycle Count Process:* A custom VBA script, is seamlessly integrated into the company's existing cycle count process to enhance inventory accuracy. By automatically identifying discrepancies, cross-referencing data, and updating records, the tool streamlines reconciliation efforts, reduces manual errors, and improves overall warehouse efficiency.

Walgreens – Shift Manager; Stallings, North Carolina

August 2017 – August 2021

- Responsible for supervising and managing the daily operations of the store, ensuring high levels of customer satisfaction and KPI performance, including inventory management, and cash handling.
- Designed and implemented an innovative inventory management system, resulting in a 25% reduction of overhand inventory.
- Train and develop team members on company policies, procedures, and customer service skills.
- Assist pharmacy team with billing, processing, and fulfilling prescription orders.
- Collaborate with other shift managers and store management to ensure seamless store operations.
- Monitor store performance and take corrective action as needed to achieve sales and profit goals.

PROJECTS (Portfolio Website: Jeremy-Sloan.com)

Personal Portfolio Website Deployment on DigitalOcean

May 2023 - Current

Tools Used: HTML, Java Script, CSS, SSH, Git, SSL/TLS Encryption

- Deployed personal portfolio website on DigitalOcean server using Nginx web server and secured with SSL/TLS encryption.
- Configured server infrastructure, managed DNS settings, and optimized website performance for fast load times.
- Implemented continuous deployment pipeline for seamless updates using Git and automated deployment scripts.
